

Challenge 2019: 40,336 records  
3,000 pilot records excluded

37,336 reserved → 36,658 eligible  
Separate A/B training, calibration and test partitions

Locally locked primary analysis  
Six fitted models; test: 7,309 admissions / 414 cases  
Hourly vs admission calibration; threshold transport

Exploratory temporal-rule follow-up  
Same frozen scores and examined tests; 660 rows

External demo, initial protocol  
656 selected people  
195 calibration / 461 test  
180 comparison rows

Post-test mapping amendment  
Added chart Temp / FiO<sub>2</sub>  
Same test; 180 further rows  
Exploratory, not a fresh test

External test: 444 nonseptic admissions and 17 cases; clinical efficacy not assessed
